

CITY INTELLIGENCE.

AN ITEM GRAVE AND GAY.—Every train brings back its hundreds of returning Philadelphians. "There is no place like home." They leave the country and the sea with lightened hearts and lightened pockets, less care, more cash. Innumerable "biddies" are busy this morning with innumerable brooms and mops, pointing the habitations where their masters dwell. We noticed one especially energetic grubbing with her finger ends at the sidewalk.

Second street a gentleman has a blue jay which has been trained to crow like a rooster. It is only necessary to excite him by scratching the bars of the cage, and he crows as loudly and as long as the human being. He is the marvel of the neighborhood. A strange bird—that!

A chap who had been going it strong upon his last night's party, in a carriage, was driven to the Central Station by four of the kindly Reserves. He was as limp as an old fish-cake. The weather was moist without—he was moist within. They had him suspended by his four limbs like a sheep hung up to be quartered.

Some of our ballet girls seem to think that mere jumping makes airy motion—whirling around like a needle's eye makes grace. They are wretchedly mistaken. Another was in a black dress, who then refused to make any more of her begrim'd hands. The redcat can discriminate.

One of our legal lights the other day said to his Honor in Court, "I propose you should go down the law in this case." "I suppose so, sir," replied the Judge, "you generally do it, sir—you lay it down, and have nothing to do with it at all, sir."

The Fenian are again stirring. The officers of the "Grecia" in this "Shamrock" District meet in council to-morrow. Green flags and the Fenian appear. Something is on the tapis. Canada beware. "Merry Isle" beware!

The children of "Kestons" imitate the style of the "Invincibles" and have issued their "General Order, No. 1," from Headquarters. They are going to spread themselves on a parade to-night. Melancholy.

The recent ordinance of Councils, requiring the City Treasurer to stamp and number each warrant, and make payment according to priority, appears to occasion considerable inconvenience.

Hearsay is a very unreliable fellow. He talks too much. Besides, he don't know the truth, and doesn't exhibit any desire to get acquainted with it.

Feast of Famine Again—To-day the Police Lieutenants were as empty of a poor man's pocket as yesterday. Yesterday their tongues ran like fly-wheels—they had scores of cases.

The Twentieth Ward Republicans are going to organize a "Grant and Colfax" club this evening.

The fire this morning was a fizzle. A tin cup of water put it out.

Wicked Ape—A dam-ape.

THE GERMAN REPUBLICAN MEETING.—The mass meeting of the German Republicans of this city to-night, at National Guards' Hall, promises to be a monster affair.

THE WEATHER.—Notwithstanding the threatening condition of the clouds this morning, no rain fell. The weather has been very sultry and close, and the thermometer compares with the same date for several years past as follows:

Table with 4 columns: Year, 4 A. M., 12 M., 3 P. M. Rows for years 1867, 1866, 1865, 1864, 1863, 1862, 1861, 1860, 1859.

MORTALITY OF THE CITY.

The number of deaths in the city for the week ending at noon to-day was 362, being an increase of 81 over the corresponding period of the year. Of these 132 were adults; 240 were minors; males, 195; females, 176; boys, 126; girls, 114. Of the number, 299 were born in the United States, 62 were foreign, 5 were unknown, 17 were people of color, and 19 were from the country.

A SWINDLING GERMAN.—Yesterday, Abraham Mayer called at a house at Fifth and Master streets, with a tray of bogus jewelry, and induced the citizen to trade a silver watch and a suit of clothing for one of the gold watches. After having left the place the watch was discovered to be bogus, when a policeman arrested Mayer, and took him before Alderman Riddle, who required him to enter \$800 bail for his appearance at court.

CAPE ISLAND.—By referring to our advertising columns it will be seen that this is the last day of the fast train to Cape Island, leaving here at 4 P. M. The 9 A. M. fast express will make its last trip for the season on Monday morning, the 31st. The West Jersey Railroad Company, however, will still run two express trains daily to Cape Island, leaving Philadelphia at 9 A. M. and 3 P. M.

FATAL ACCIDENT.—A lad of eighteen years, named Peter F. Ward, while gleaning on the banks of the Schuylkill river, near the 9 A. M. fast train, was struck and killed by the engine and train. He was instantly killed, and was fatally wounded. Removed to his home, No. 227 Wharton street.

THE CELESTIALS.

Celebration of the Birthday of Tzu-an Huang-tai-hou, the Empress Dowager. A Boston correspondent writing from that place on yesterday says:—"To-day is the anniversary of a very important event in the record of the history of the Great Empire of the East. It was duly celebrated by the Chinese members of the Embassy, this morning at an early hour the attaches of the Embassy dressed themselves in their official robes, and waited upon the Emperor, who occupied the palace of Chih Tsjen. The occasion was the official recognition, according to the customs of the country, of the birthday of Tzu-an, Huang-tai-hou, or Empress Dowager. The Emperor, the Empress Dowager, the Emperor of the Western Palace, the Empress of the Middle Palace, the Emperor of the Eastern Palace, and the Emperor of the Western Palace, are now the senior Empress. The birthday of Tzu-an, Huang-tai-hou, occurs, according to the Chinese calendar, on Chih-tjen Chuei (twelfth day of the twelfth month of the Chinese year, which corresponds to this day (August 28). In China these anniversaries are the occasions of great ceremony. All the officials of the empire having the *chuei* of the palace are expected to observe certain duties. The birthday of the Emperor, the Emperor, dressed in Court attire, call at the palace to pay their respects. Those at a distance from all the provinces send memorials up to the imperial personage, the object of honor, "to congratulate him on his birthday, and to present him with a memorial of gold and silver."

To these memorials a reply is written with a vermilion pencil, "Chuei-an" (I am well). This morning, after the attaches had paid their respects to the Tsjens, the entire party—Chih Tsjen, Chih Tsjen, through Mr. Fung, the interpreter, Mr. Brown, not arriving till late, with great solemnity said:—"We come in accordance with our custom to inform you that this is the anniversary of the birthday of Tzu-an, Huang-tai-hou, the Empress Dowager, and that the day has been observed in the usual form by us." Mr. Burlingame replied:—"I am glad to find in this distant land you continue to observe the customs of your own country, and to pay respect to their government. Your customs cannot be alien to their government. As in the case of the birthday of the Emperor, which occurred during our presence in San Francisco, I must again wish that the Empress dowager may have many returns of such a nature. After a brief conversation with Tsjen and young mandarins retired to their apartments. The Embassy will leave here the beginning of the coming week for New York, from which port they will embark for Europe during the month of September.

ARABIA.

Four Barbarians, Tried for Wholesale Murder. A French paper publishes the following:—"Four Arabs named Dabnuu-Quid-Ali Mousa, Larbi-Quid-Larbi, Larbi-Quid-Cad, and Bouzian-Quid-Chaus, have just been convicted at Tlemcen, in Algeria, for the murder of an entire French family, consisting of Saint-Germe, a cattle dealer, his wife, and their two grandchildren. Saint-Germe occupied a house in the city of Tlemcen, which was situated on the frontier of Morocco; he was in easy circumstances, and sometimes thoughtlessly boasted of the sum of his money, which he occasionally received from his sons, one of whom was a young man named Larbi. He had a great over-scrupulous in his business relations, and frequently bought a olea cattle from the natives; these transactions brought him in connection with some Arabs of the lowest grade, and one of these latter he became acquainted with the position of his premises. Saint-Germe had no great confidence in his neighbors, and his residence resembled a small fortress, being protected against any nocturnal attack from without by doors stoutly bolted, while a grated loop-hole enabled him to reconnoitre his visitors before granting admission. Access was only obtained to the upper part of the house by a trap-door over a stable; and Saint-Germe always had in readiness quite an arsenal of defensive weapons.

"Notwithstanding these precautions, the whole family were discovered, on the morning of the 29th of March last, horribly butchered. The culprit had been introduced into the house by the wall separating the stable from a shed usually left open at night to receive any chance cattle brought to him for sale, and afterwards, by means of the trap-door, giving access to the interior of the house. The evidence being quite conclusive against the accused, three were condemned to death, and the fourth, Larbi-Quid-Cad, to hard labor for life. The sentence was received by the prisoners with loud acclamations, taken in order, and repeated by the whole tribe of the Beni Ouidra, who had been encamped during the trial on the open space before the Court House."

A PARSONAGE ROBBER.—The parsonage attached to the Church of St. James the Less, at Falls of Schuylkill, was entered last night through the second story window, and robbed of the table service, consisting of forks, spoons, etc.

A DROWNING CASE.—Edward Kelly, aged eleven years, residing on Lindsay avenue, was drowned yesterday afternoon at Point Airy. Coroner Daniels held an inquest, and a verdict of accidental drowning was rendered.

SURETY DEATH.—Coroner Daniels this morning held an inquest on the body of Louis Clark, aged seventy years, who died suddenly last night. The deceased lived at Gray's Ferry road and a maiden lane.

EAST INDIA TELEGRAPH.

ELECTRIC TELEGRAPH IN CHINA. THE EAST INDIA TELEGRAPH COMPANY'S OFFICE, Nos. 23 and 25 NASSAU Street.

ORGANIZED UNDER SPECIAL CHARTER FROM THE STATE OF NEW YORK. CAPITAL, \$5,000,000. 50,000 SHARES, \$100 EACH.

DIRECTORS: HON. ANDREW G. CURTIN, Philadelphia. PAUL F. FORBES, of Russell & Co., China. FRED. BUTTERFIELD, of F. Butterfield & Co, New York. ISAAC LIVERMORE, Treas. Mich. C. E. R., Boston. ALEXANDER HOLLAND, Treas. Am. Ex. Co., New York. HON. JAMES NOXON, Syracuse, N. Y. O. H. PALMER, Treas. West. U. Tel. Co., New York. FLETCHER WESTRAY, of Westray, Gibbs & Hardcastle, N. Y. NICHOLAS MICKLES, New York.

OFFICERS: A. G. CURTIN, President. N. MICKLES, Vice-President. GEORGE CONANT, Secretary. GEORGE ELLIS, Cashier National Bank Comm. Account Treasurer. HON. A. K. McCLURE, Philadelphia, Solicitor.

The Chinese Government having (through the Hon. Anson Burlingame) conceded to this Company the privilege of connecting the great seaports of the Empire by submarine electric telegraph cables, we propose commencing operations in China, and laying down a line of 900 miles at once, between the following ports, viz: Canton, 1,000,000. Hong Kong, 60,000. Swatow, 250,000. Amoy, 200,000. Foo-Chow, 1,200,000. Wai-Chu, 300,000. Ningpo, 400,000. Hang-Chow, 1,000,000. Shanghai, 1,000,000. Total, 5,910,000.

These ports have a foreign commerce of \$900,000,000 and an enormous domestic trade, besides which we have the immense internal commerce of the Empire radiating from these points, through its canals and navigable rivers. The cable being laid, this company propose erecting land lines, and establishing a speedy and trustworthy means of communication, which must command there, as everywhere else, the communications of the Government, of business, and of social life, especially in China. She has no postal system, and her only means for conveying information is by couriers on land, and by steamers on water.

The Western World knows that China is a very large country, in the main densely peopled; but few realize that she contains more than a third of the human race. The latest returns made to her central authorities for taxing purposes, by the local magistrates, make her population Four Hundred and Fourteen Millions, and this is more likely to be under than over the actual aggregate. Nearly all of these who are over ten years old not only can, but do read and write. Her civilization is peculiar, but her literature is as extensive as that of Europe. China is a land of teachers and traders; and the latter are exceedingly quick to avail themselves of every proffered facility for procuring early information. It is observed in courtesy that the Chinese make great use of the telegraph, though it there transmits messages in English alone. To-day, great numbers of fleet steamers are owned by Chinese merchants, and used by them exclusively for the transmission of early intelligence. If the telegraph were proposed, connecting all their great seaports, we know in existence, it is believed that its business would pay its cost within the first two years of its successful operation, and would steadily increase thereafter.

No enterprise commends itself as in a greater degree remunerative to capitalists, and to our whole people. It is of vast national importance commercially, politically, and socially. It is of those who are shareholders of this company to a limited number, may be obtained at \$50 each, \$100 payable down, \$50 on the 1st of November, and \$25 payable in monthly installments of \$25 each, commencing December 1, 1869 on application to

THIRD EDITION WASHINGTON.

The Exchange of Prisoners—Another Letter from Commissioner Ould—Movements of Gen. Rosecrans and Senator Drake. DEMOCRACY.

A Political Riot in Chicago—The "White" Boys in Blue Assail the Irish Tanners.

The Threatened Outbreak of the Blairites in Missouri. Etc., Etc., Etc., Etc., Etc.

FROM WASHINGTON. Ex-Rebel Commissioner Ould. Special Despatch to The Evening Telegraph. WASHINGTON, Aug. 29.—The ex-Rebel Commissioner for Exchange of Prisoners, Ould, is out in another letter to-day in defense of the policy pursued by the Confederate authorities towards the Union prisoners during the Rebellion. He says his celebrated letter to General Winler, written in the spring of 1863, wherein he said, in reference to the Union prisoners, "I have made arrangements largely in our favor; we get rid of a set of miserable wretches, and receive some of the best material I ever saw." Ould, it is well understood, is engaged to write a series of such articles in the defense of the Democracy and Seymour and Blair.

Senator Drake. Of Missouri, arrived here this morning from Massachusetts, where he has been re-joining since the recess. He has been through all the New England States, and though he did not take an active part in the canvass, yet he has made it his business to ascertain all the facts relative to the political prospects in that section. His opinion is that all the New England States will give increased majorities for the Republican ticket this fall.

General Rosecrans was in the State Department to-day in consultation with Secretary Seward relative to the Mexican mission. He also gave Mr. Seward some account of his visit to White Sulphur Springs, with which it is understood the Secretary was highly pleased, though he expressed a doubt as to the genuineness of the professions of loyalty made by certain of the Confederates whom Rosecrans met.

He afterwards called upon the President, and had a long interview, during which he related the story of his exploits among the big Rebels at the White Sulphur Springs. General Rosecrans leaves to-night for New York, where he proposes meeting some of the big Democrats interested in the election of Seymour and Blair.

The Revenue Department. There is no change in the Internal Revenue muddle, though the friends of both McCulloch and Rollins express confidence that a compromise will soon be effected whereby the dead lock will be broken.

FROM CHICAGO.

Disgraced Proceedings at a Political Meeting—The "White" Boys in Blue on the Rampage. Special Despatch to The Evening Telegraph. CHICAGO, Aug. 29.—There was a serious riot here last night at an Irish political meeting in the Eighth Ward. The Democrats in attendance exceeded the Republicans in numbers, and somehow or other, each party laying the blame on the other, a fight was inaugurated of a most alarming character. One Mr. John Pope attempted to state the purpose of the meeting, when the White Boys in Blue proceeded to drown his voice with yells, shrieks and groans. The entrance of the Irish Tanners was the signal for the crowding outbreak of riot.

The scene which followed was of the most exciting nature from the struggling crowd, where clubs and flags and torch sticks waved and flattered in the wildest confusion. Hois, yells, groans, and blasphemy succeeded. The burning torches of the Tanners were overturned, and all aflame, scattered about the room, setting fire the building in several places and requiring instant attention to prevent its destruction. Clubs, bats, slung shots, and revolvers were used, and the Tanners, taken by surprise, by the evidently preconcerted assault, and greatly overpowered, were driven out into the streets. Here, the riot still raging, paving stones were called into requisition in addition to the clubs, and it seemed likely that many would be killed.

The alarm had been sent to the Fourth Street Police Station, and a squad of policemen came on the double-quick to the scene. Captain Kennedy of the Western Division Police, also hurried down in a buggy, and rising up in his carriage, ordered the crowd to disperse. The presence of these peace-makers had the desired effect, and the rioters began to disperse, when some raised the yell of "Seymour and Blair." For a moment it seemed as if the assault would be renewed. The police succeeded in arresting three men, and the rioters gradually dispersed.

At least none of the Tanners were found to be seriously hurt, and many more were slightly injured. It is not known as yet that a single member of the attacking party was seriously hurt. The Democrats assert that the meeting was not called as a Republican one, that it was intended as a device to lure Irishmen into the radical ranks, and that the outbreak was provoked by calling the Democrats "dog," and by using threats of violence towards them. There is much excitement in the city over the affair.

General Grant and Family arrived in this city quietly this morning, to spend a day or two with his brother. A Personal Encounter. W. W. O'Brien, the Democratic candidate for Congress at Large from Illinois, and General Mitchell, Sheriff of Gates county of this State had a fight at Minton on Friday, growing out of a political discussion. No great damage was done to either party.

Special Despatch to The Evening Telegraph. OMAHA, August 29.—Seven hundred and eighty miles of the Union Pacific Railroad are completed to-day. John Coon, the Chicago billiardist, arrived last evening, and is making preparations for a grand billiard tournament at Brunswick Hall, in this city, on September 7. Professor Carme and other celebrated billiardists are expected. Several valuable prizes will be awarded. G. F. Myers, Chief Quartermaster, closed a contract for building military barracks here, at \$117,000.

FROM LOUISIANA.

Non-Payment of the Police Force—Enactments by the Legislature—Important Railroad Provisions. NEW ORLEANS, Aug. 29.—The police force of New Orleans have not been paid for five months. Yesterday a committee from the force waited on the Mayor with a memorial, setting forth that many of the officers are without means to procure the commonest necessities of life; that their families are in actual want; that some officers have been reduced to absolute beggary, and have been compelled to solicit from the charitable whose residences they guard, food to take to their families; and stating that it was not charity they asked, but pay for labor honestly performed.

Councils considered the memorial and passed a resolution declaring their inability to move in the matter, and returned the memorial to the Legislature. In the House yesterday an act was passed amending the charter of the city of Jefferson, providing for a new election of city officers on January 1, and empowering the Governor to remove the present incumbents, as the latter were elected under the present Constitution.

The House also passed a bill prohibiting any distinction of color or of previous conviction on routes of travel, places of entertainment or public resort. The following are portions of the bill: Section 2. It shall be unlawful for any person or persons commanding any steamer, sailing vessel, or water craft, plying in this State, to make any distinction on board of any of the above mentioned vessels, to refuse accommodations in account of race or color.

Section 3. It shall be unlawful for any person or persons conducting or controlling any railroad company, stage line, or vehicle, to make any distinction, or refuse accommodations, to any person or persons on account of race or color.

Section 4. Any person or persons violating the provisions of this Act, on conviction thereof shall be fined not less than \$100, and not exceeding \$500, receivable before any competent tribunal in this State, or imprisonment not less than three months, and not exceeding one year.

Section 5. All acts, parts of acts, and ordinances in force in the State contrary to the provisions of this Act are hereby repealed. Section 6. This act shall go into effect from and after its passage.

FROM MISSOURI. The Registrar Difficulties—Fears of a Riot—The Sheriffs are Called Upon for Protection. St. Louis, Aug. 29.—Registration is progressing quietly and rapidly in this city, but from the accounts from the interior, we learn that in some localities difficulties have occurred, and the Sheriffs have been in some instances obliged to provide protection for the Registrars against threats and intimidations.

F. Morgan, formerly a soldier in the First Iowa Cavalry, and resident of St. Louis for the past two years, was refused registration to-day for the reason that he was unable to produce his discharge papers.

Much indignation is felt against the registrars. A large number were rejected to-day on the ground of Rebel sympathy. Over one hundred men were naturalized this morning. It is not unlikely that considerable blood will be shed before the registration is completed.

On Wednesday next a delegation of General Blair's friends leave here for New Orleans, for the purpose of presenting to the Blair Knights of that city a splendid silk banner, which cost \$1000, a present from a few Democratic merchants.

FROM TENNESSEE. Republican Nominations—Affairs in the Legislature. Special Despatch to The Evening Telegraph. NASHVILLE, Tenn., Aug. 29.—Colonel Louis Telford, of Bedford county, was nominated for Congress by the Republicans of the Fourth Congressional District yesterday. His competitor was Hon. James Mullens, the sitting member.

In the House, yesterday, the Senate resolution providing for the appointment of a committee to wait on the President and ask protection for the State against the Ku-Klux Democracy, brought out a very spirited debate. The resolution will probably be adopted to-day.

Nothing of consequence was done in the Senate. FROM ASPINWALL. Arrival of the Alaska—A Destructive Fire. New York, August 29.—The Alaska brings Panama advices of August 20, and \$500,000 in treasure.

The opposition line steamship Dakotah reached Aspinwall on the 19th, having been fourteen days on the passage from New York, detained by rough weather off Hatteras, and making the rest of the voyage with one wheel.

A fire occurred at Guayaquil on August 6, destroying thirty-five dwellings, and much other property. The United States gunboat Saco had arrived at Aspinwall.

FOURTH EDITION THE LATEST NEWS.

FROM MASSACHUSETTS. A Suicide on a Steamer—Destruction of Farm Buildings. Boston, Aug. 29.—A passenger on the steamer John Brooks, from Portland for Boston, last evening, jumped overboard when off Cape Elizabeth and drowned, although the boat was stopped and every exertion made to rescue him. He was about twenty-one years of age, and it is supposed his name was Gray.

Lowell, Aug. 29.—Four large barns and other outbuildings on the farm of Pasche Rogers, near Lowell, were burned this morning, having been undesignedly set on fire. The property has been owned in the Rogers' family for more than a hundred years. The loss will reach \$10,000.

FROM NEW YORK. A Fire at Schaghticoke Falls. Troy, Aug. 29.—A fire at Schaghticoke Falls, in this county, this morning, destroyed about \$12,000 worth of property. The heaviest sufferers are John Connor, merchant tailor, \$5000, and Andrew Supperly, \$6000. The fire was the work of an incendiary.

The Spiritualistic Convention. ROCHESTER, N. Y., Aug. 29.—At the afternoon session of the Spiritualists' Convention yesterday, the report of the Committee on organization was adopted. Also resolutions on the death of several noted Spiritualists. The Committee on education made a report which was adopted. At the evening session an inspirational poem was delivered by Mr. Wheeler and the Convention adjourned sine die.

FINANCIAL ITEMS. The New York Herald this morning says:—"Money continues very abundant at four per cent on call, and the principal dealers in Government securities are estimated to have a surplus of \$100,000,000. Three and a half per cent, at about 100,000,000, and in some instances are loaned at five per cent, and in some cases one year of a bank which promises to advance its rate for stock loans to six, but we question whether any one can be found willing to pay it at present. The resumption of currency westward this week have been very light compared with those of the two previous weeks, and the bank statement to be published to-morrow is expected to be considerably favorable. The railway war market is dull and the public mind is on the edge of a panic. There are signs of a general advance in the price of wheat, and it is expected to reach 47 1/2, which is a high price for the season.

The market for Government securities has been agitated very actively and active to-day, and a further advance in prices took place, especially for the five per cent of 1867, which were sold at 100, and are now considerably overbid by the bears along with the later issues of the same issue. There has been a partial recovery of the active market for the 1867 and 1867 and the bulk borrowing demand for them indicates the extent of the market interest outstanding. The demand for all the issues is very large and well distributed and the indications favor a considerable higher price for the 1867 and 1867, the cheapest as well as the safest in the country.

There is a movement on foot among the foreign bank to convert a large amount of the 1867 and 1867, now held in Europe into the bonds of 1867 and 1867, for the sake of the difference in price between the two issues, the 1867 and 1867, being at present the fact of their having a longer period to run. The 1867 and 1867 are in question, and the market is very disturbed whatever of any of the market and it will result in a closer approximation in price of the old and the new bonds.
